EDUCATION

Purdue University

August 2023 – May 2027

B.S. in Computer Science (Security), B.A. in Political Science (International Relations)

West Lafayette, IN

- **Anticipated Graduation:** May 2027
- **Relevant Coursework:** Object-Oriented Programming, Data Structures & Algorithms, Systems Programming
- **Awards:** Kirby & Caroline Risk Scholarship Recipient, Lilly Endowment Scholarship Finalist

EXPERIENCE

Instructor of Record — CS19300: Tools

August 2024 – Present

Purdue University

West Lafayette, IN

- Instructed **800+** first-year CS students on **Git**, **IDEs**, and **debugging workflows**, creating engaging lessons.
- Mentored and led **38** undergraduate TAs, coordinating meetings and ensuring instructional quality.

Tech@Lilly Software Engineering Intern

May 2025 – August 2025

Eli Lilly & Co. — Business Units, Global Medical Affairs

Indianapolis, IN

- Engineered an **AI-driven** pipeline transforming static PDFs into dynamic HTML, reducing manual workload and bottlenecks for developers and stakeholders.
- Cut build time by up to **97%**, with potential savings of **\$200M** based on 100 PDFs on the LillyMedical site.

Summer Experience Intern

June 2024 – August 2024

Eli Lilly & Co. — ADME Investigative Toxicology

Indianapolis, IN

- Organized and refined datasets from various Albumin studies to ensure **accuracy** and **consistency**.
- Conducted comprehensive analyses to identify meaningful patterns and trends within Albumin studies.

Summer Experience Intern

June 2023 – August 2023

Eli Lilly & Co. — Immunology Global Marketing

Indianapolis, IN

- Partnered with communications team to plan team-wide community-building events.
- Supported campaign initiatives that boosted employee participation across the Immunology Business Unit.

PROJECTS

Automated PDF-to-Web Pipeline | *Python, REST APIs, LLM Integration*

May 2025 – August 2025

- Built an **AI-driven pipeline** transforming static PDFs into styled HTML using **RAG workflows** and prompt engineering, automating extraction, styling, and delivery.
- Developed **backend** workflows for file ingestion, model queries, and styling injection aligned with accessibility and design standards.

Lilly Intern Fast Track (LIFT): Hackathon Project | *Python, React, Docker, Azure, REST APIs*

July 2025

- Developed a **multi-agent** onboarding platform integrating internal APIs and Workday to enable personalized, seamless intern experience.
- Served as backend engineer, configuring models, prompts, and data pipelines for the FAQ agent, integrating internal APIs, and deploying services using Docker with a React frontend.

Albumin Data Analysis | *Python*

June 2024 – August 2024

- Cleaned, analyzed Emulate Albumin data in a research lab to uncover trends over time.
- Performed descriptive analyses and data visualization, translating results into a report/dashboard.

LEADERSHIP

Board Member

March 2024 – Present

Computer Science Undergraduate Student Board (USB)

West Lafayette, IN

- Collaborated with 23-member team to advocate for and support **1,000+** CS and Data Science undergraduates.
- Led marketing and blog initiatives while supporting the CS193 Tools course to enhance student engagement.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, HTML/CSS, Javascript, x86 Assembly

Tools & Frameworks: Git, Docker, Visual Studio, PyCharm, IntelliJ, LaTeX, pandas, NumPy, Matplotlib, PyMuPDF

APIs & Systems: REST APIs, FastAPI, SwaggerUI, RAG Systems, Agent Systems
